Team ID	SWTID1720069738
Project Name	House Hunt
Maximum Marks	2 Marks

Project Overview:

Project Name: House Hunt

Project Description: House Hunt is an online platform designed for renting houses. The platform allows users to sign up, log in, search for property listings, apply various filters, view detailed listings, contact property owners, and post their own properties for rent.

Project Version: 1.0

Testing Period: 10-07-24 to 12-07-24

Testing Scope:

- **Sign up:** Ensure users can create new accounts.
- **Login:** Verify that users can log in using their credentials.
- **Search listings:** Test the functionality for searching property listings.
- **Filters for searching:** Validate the filter options to narrow down search results.
- **View listings:** Check the details displayed for each property listing.
- **Contacting property owners:** Confirm users can contact property owners through their e-mail id.
- **Post the properties:** Ensure property owners can list new properties for rent.

Testing Environment:

URL/Location: [Web URL or Application Location]

Credentials (if required): [Username/Password]

Test Cases:

Test Case ID	Test Scenario	Test Steps	Expected Result	Actual Result	Pass/Fail
TC-001	User sign up	1. Go to sign up page 2. Enter details 3. Submit	User account is created successfully	Account has been created successfully.	Pass
